ABOUT ME

"Aspiring Software Engineer with a strong command of Java and Python, and a deep understanding of Data Structures and Algorithms (DSA). Highly proficient in building responsive web interfaces using HTML and CSS. Dedicated to writing clean, efficient code and eager to leverage problem-solving skills to contribute to innovative projects in a fast-paced development environment."

EDUCATION

2024 - 2028	Computer Science and Engineering I am currently pursuing my BE in the 2 nd year Chaitanya Bharathi Institute of Technology	CGPA:9.64
2022 - 2024	Intermediate Narayana junior college	Marks:975
2021 - 2022	SSC RDF kalleda high school	GPA:9.7

TECHNICAL SKILLS

- **Programming Languages:** Java, Python, C, C++, JavaScript
- **Web Technologies:** HTML,CSS, Flask
- **Database:** MySql
- **Developer Tools:** V S Code, Git, AutoCAD
- Data Structures and Algorithms, Object Oriented Programming, Database Management System

SKILLS

- Leadership
- Communication
- Inovation
- Teamwork
- Collaboration
- Problem Solving

Projects

• Student Management System (Python, Flask, MySQL):

Developed a web-based system to manage student records such as personal details, marks, and attendance.

• Online Quiz System (Python, Flask, HTML, CSS, JavaScript):

Built a web application that allows students to take multiple-choice quizzes online. Implemented automatic scoring, question management by admin, and instant result display after quiz submission.

Achievements

- Solved 200+ problems in CodeChef
- Solved 40+ problems in LeetCode.
- NPTEL 87% in Joy of Computing Python.
- IBM certificate on Python 101 for Data Science.
